**INDIVIDUAL
CASE
DISCUSSION**
of attendees

botiss biomaterials, the leading German specialist for dental bone and tissue regeneration invites you for the 2017 Hands-on Human Cadaver Courses at the Anatomy Training Center of the Medical University of Vienna, Austria.

Course Description

The participants will perform oral implant surgery and soft tissue techniques. 80% of the course is hands-on with 20% lectures about explanations of the techniques and live or video taped dissection/operation (displayed on screen).

A maximum of two participants will be assigned to each cadaver skull. Since the cadavers are fresh and not embalmed, a „close to reality“ simulation of the surgical procedures can be experienced. The faculty is around to support you and will guide you through the whole process. Surgical units, ring technique instruments, implants and disposal material will be provided.

One step vertical augmentation and implantation with allogenic bone rings and state of the art soft tissue management

NEW: Participants will have the chance to discuss own clinical cases and experiences in the session.

Day 1

09.00 a.m. - 05.00 p.m.

Bone Augmentation with allogenic bone rings

- Vertical bone augmentation with allogenic bone rings
- Dissection of anatomical danger zone: lingual+inf. alveolar+mental+infraorbicular nerve, palatine+facial+submental artery
- Sinus floor elevation with the ring technique
- Techniques for a tension-free wound closure

Day 2

09.00 a.m. - 05.00 p.m.

Advanced soft tissue techniques and trouble shooting

- Techniques for the restoration of a functional and aesthetic emergence profile
- Soft tissue grafts
- Trouble shooting
- Presentation of participants own cases and discussion

Faculty

Dr. Bernhard Giesenhagen

Scientific Assistant at the Dental Prosthetics Department at Christian Albrechts University in Kiel. Specialized in implant dentistry since 1980. Lecturer at numerous education events in Germany and other countries since 1995.

Medical Director of the Pro-Implant Institute of Dental Implantology and of the International Training Centre in Kassel since 2003.

Dr. Norbert Fock

10 years as Cranio-Maxillofacial Surgeon at University Hospital in Vienna, since 2004 in private practice, specialized in implant dentistry and bone graft procedures, as well as in aesthetic facial surgery.

Organizer and teacher in postgraduate education program (www.anatomical-surgical-training.com)

Dr. Darius Pocebutas

Postgraduated in implantology at Goethe University in Frankfurt/Main and has comprehensive international practice experience (Latvia, Sweden, Australia, Germany, Ukraine, Austria, Poland and Denmark).

Partner at Pro-Implant Institute and head of the Pro-Implant Dental Clinic in Kaunas. Founder of the Baltic States' Implantation Club.
